## Enabling the Interpretation Feature on Webex | Desktop App | Host

2. Select the globe icon at the bottom-left of the screen and click on "Manage interpretation".

3. Choose your desired language combination. (Ex: English <> Spanish)

4. Under Interpreter 1, either type the name of the interpreter to select the name in the list or click the drop-arrow button to select from the list.

5. "Add new language" to assign more interpreters.

6. Select "Apply".
